Kim Lauridsen Hansen, Branch Manager

Past:

- Managing Director
- 
- 
- Authorisation, rat control, Danish Agency for Spatial and Environmental Planning. (Naturstyrelsen)
- Certificate, Pest Control with Aluminium Phosphide

THE BOSS OF BUGS

Who am I ?

Kim Lauridsen Hansen, Branch Manager

Past:

- Managing Director
- Authorisation: rat control, Danish Agency for Spatial and Environmental Planning, (Naturstyrelsen)
- Certificate, Pest Control with Aluminium Phosphide

Background — Why am I today talking about remote pest control?

When we developed TrapMe, it was in based on feedback and wishes from big number of PCO's

We used the following dogmas:

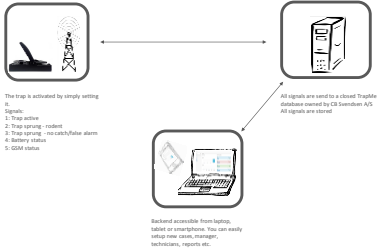

Another important approach: This is not a solution – This is a tool for professionals

- **Monitor and kill ... as easy as possible.**
- **Easy setup:** Should keep the PCO in his brown daily routines without using other skills than he already has. No schooling should be needed.
- **No insertion of Sim card:** it has a built in sim card
- **Strong GSM signal:** A long with a strong transmitter and antenna, we use roaming to ensure strongest signal even.
- **Send useful messages:** 1: Activated 2: Capture 3: Deployed no capture 4: Low battery 5: Low GSM signal
- **Long battery life time:** By normal use 3 years.
- **IP 67:** (Water resistant) No remote traps should be less...
- **High quality:** it has to be...
- **Low pricing:** We saw all other products falling by introducing a price not suitable for the market, which also acquired a to big difference in the daily routines for PCOs.
- **Easy maintaining:** Webpages / web portal: As easy as possible but still with possibility to make a master for each company and standalone technicians. Locations for each trap.

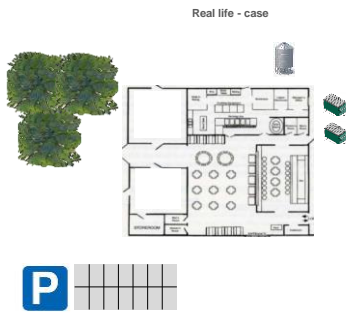

Simpel idea

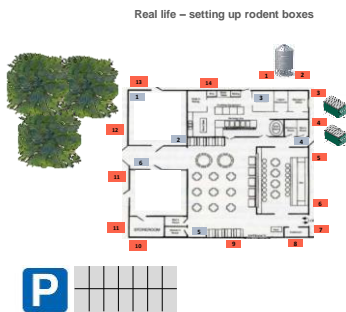

- **Easy setup:** ...
- **Simple:** ...
- **No fuses:** ...
- **Best GSM signal:** ...
- **Alarms & messages:** ...
- **Long life batteries:** ...
- **IP67:** ...
- **High quality:** ...

Filter traps

Name	State	Trap	Trap	Trap	Trap	Trap	Trap
Trap 1	Open	Trap 1	Trap 1	Trap 1	Trap 1	Trap 1	Trap 1
Trap 2	Closed	Trap 2	Trap 2	Trap 2	Trap 2	Trap 2	Trap 2
Trap 3	Rodent	Trap 3	Trap 3	Trap 3	Trap 3	Trap 3	Trap 3

Upsides

- Swift rodent control startup. No setup needed.
- Reduces use of rodenticides.
- Professional service 24/7 – 365 days per year.
- All historical data's saved – only you or those you add as user can access.
- Reduces mileage expenses radically.
- Tells you what you need.
- Easy to move traps and change setup.

Tool vs Solution

We believe ...

Your skills, your knowhow and our tool can be your solution

We believe:

Through developing innovative and smart tools for pest controllers, we can help your business make a difference.

We are determined, committed and have the will, knowledge and capacity to do what we believe in and make things work.
